# RESORT AND REHABILITATION CENTER "RUZHANSKY"

Being a therapeutic institution, we have been constantly improving and developing our medical treatment activities. We offer all types of ultrasonic, functional and laboratory diagnostics. About fifteen doctors work permanently in the institution. Treatment is provided to both adults and children. The resort and rehabilitation center "Ruzhansky" has a responsible attitude to the selection of specialists. All doctors are constantly improving their knowledge, upgrading their skills. The high professional level of doctors, wide experience and constant skill improvement allows us to guarantee the highest level of all the services provided at the "Ruzhansky" resort and rehabilitation center.

- **Gastroenterology • Gynecology • Cosmetology • Dentistry • Pediatrics • Therapy**
- **Nutrition • Endocrinology • Acupuncture • Physiotherapy • Remedial gymnastics**
- **Functional diagnostics • Neurology, urology are to open shortly • there are two physical rehabilitation trainers in the institution staff**

The center has a daycare department and a 24-hour hospital with a team on duty, consisting of a doctor and a nurse. The medical component with the latest medical equipment and the advanced medical base is well integrated into the unique environment of the "Ruzha Khutar" resort.

# RUZHA KHUTAR Resort

**RESORT "RUZHA KHUTAR" – ROSA SPA –**

is the pride of the Republic of Belarus, the gold standard in the field  
of health improvement, rehabilitation of sanatorium treatment.

When talking about the "Ruzha Khutar" Resort, first of all, we think about holidays with health care, which means care of beauty as the result. Favorable climate, curative mineral water, picturesque lake, pure nature and modern material and technical base make "Ruzha Khutar" one the best resorts both in Belarus and abroad. High efficiency of treatment and friendly attitude of the staff have made "Ruzhansky" famous and popular in many countries worldwide.

Should you like the wonderful Belarusian nature,

exquisite service, European quality and at the same time want to spend quality time – to become younger, more beautiful and healthier – we recommend you to pay attention to Ruzha Khutar Resort.

Going on holidays for beauty and health, do not forget to hide away thoughts of unfinished reports, intrigues of colleagues and everyday worries. Then, be sure, when you return, you will not only be beautiful and healthy but also stronger and calmer. At any time of the year, Ruzhansky Resort will help feel the atmosphere of a real southern resort!

## Dear colleagues and partners!

2020 has been a challenging year for business. The pandemic has dramatically changed the usual way of life and work, bringing increased pressure to bear on the global business community.

But the business is not standing still. It is recovering and getting used to new conditions. We haven't stopped either: realizing that considerable effort is still to be invested in resuming and maintaining contacts with foreign partners, we confirm daily that it is easier to move forward in a concerted action.

Belarus is a country with an open and export-oriented economy. More than 70 percent of the products manufactured by our companies are shipped to different parts of the world. The high level of integration into trade and financial international processes calls on Belarusian enterprises to constantly monitor the situation on foreign markets, maintain business activity, introduce modern technologies, and develop innovative products.

I am firmly convinced that the ninth edition of the Belarusian Exporters catalogue will become an effective tool for

information support of business, promotion of goods and services of domestic enterprises, and will catch the eye of foreign business circles, being a useful guide for implementing joint projects.

The catalogue features relevant information about more than 2200 Belarusian manufacturers, including both large companies that have gained recognition far beyond our country, as well as representatives of medium and small businesses that are just beginning to enter foreign markets.

For its part, the Belarusian Chamber of Commerce and Industry will continue to actively promote the foreign economic interests of domestic companies and provide practical assistance in building long-term relations with foreign partners.

Vladimir Ulakhovich  
Chairman  
Belarusian Chamber of Commerce and Industry

## BELARUS. GENERAL INFORMATION

### GEOGRAPHY

The Republic of Belarus is situated in the heart of Europe, at the crossroads of trade routes from west to east and from north to south. It is crossed by the shortest transportation routes linking the CIS countries with the countries of Western Europe. Belarus is bordered by Lithuania and Latvia in the north, Ukraine in the south, Russia in the east, and Poland in the west. Minsk is located 500 km away from Warsaw, 700 km away from Moscow, 1060 km away from Berlin.

Belarus covers the total area of 207,600 sq. km. Its extension from north to south is 560 km and from west to east is 650 km. The country's capital – Minsk – is on the same latitude as Hamburg and Dublin. Belarus' highest point – Mount Dzerzhinskaya (345 m above sea level) – is in the Minsk Region. The country's lowest point is the Neman Valley in the Grodno Region (80–90 m above sea level). The territory is divided into six administrative regions.

### CLIMATE

Belarus has a moderate continental climate characterized by mild winters with frequent thaws and rainy warm summers. Average temperatures vary across Belarus. In July, the average temperature is +17°C to +18.5°C. In January, temperatures average from -4.5°C to -8°C. The average annual rainfall is 600–700 mm.

### POPULATION

The population of the Republic of Belarus is about 9.5 million people. Belarus is a multinational country with 70 percent of the urban population.

### LANGUAGE

Belarusian and Russian are the official state languages in Belarus. The most common languages for business communication with foreign partners are English and German.

### **PUBLIC, REPUBLICAN AND OTHER HOLIDAYS**

The following public and main republican holidays are celebrated in Belarus (the holidays marked bold are officially non-working days in Belarus).

#### Public holidays:

- Constitution Day – 15 March;
- Day of Unity of the Peoples of Belarus and Russia – 2 April;
- **Victory Day – 9 May;**
- Day of the State Coat of Arms and Flag – second Sunday of May;
- **Independence Day (Republic Day) – 3 July.**

#### Republican holidays:

- **New Year – 1, 2 January;**
- Day of the Defender of the Fatherland and the Armed Forces of the Republic of Belarus – 23 February;
- **Women’s Day – 8 March;**

- **Labor Day – 1 May;**
- **October Revolution Day – 7 November.**

#### Religious holidays:

- **Orthodox Christmas – 7 January;**
- **Easter – by the Orthodox and Catholic calendars;**
- **Radunitsa – by the Orthodox calendar;**
- Memorial Day – 2 November;
- **Catholic Christmas – 25 December.**

If any official non-working holiday falls on a weekend, usually no extra day of rest is provided. If any of the official holidays falls on Tuesday or Thursday, the preceding Monday or the following Friday (respectively) is, as a rule, an official non-working day, while the Saturday nearest to the holiday is a working day.

Foreign organizations in Belarus, such as embassies and consulates, usually celebrate the public holidays of their countries in addition to the Belarusian holidays.

## **BELARUSIAN CHAMBER OF COMMERCE AND INDUSTRY**

The Belarusian Chamber of Commerce and Industry is a non-governmental non-commercial organization operating under the law of the Republic of Belarus 'On a Chamber of Commerce and Industry'. It is the leading business community in the Republic of Belarus uniting more than 2500 member enterprises.

They represent the entire spectrum of the Belarusian entrepreneurship from small businesses and private entrepreneurs to large enterprises that are the flagships of the Belarusian industry.

The Belarusian Chamber of Commerce and Industry is a member of several international organizations: International Chamber of Commerce, World Chambers Federation, Association of European Chambers of Commerce (EUROCHAMBRES), Silk Road Chamber of International Commerce.

The Chamber has been implementing 283 cooperation agreements and memoranda with national and regional chambers of commerce and industry, associations and other organizations in more than 100 countries around the world – traditional and promising trade partners of the Republic of Belarus.

The Belarusian Chamber of Commerce and Industry has promoted the establishment of 23 business cooperation councils, including those with Austria, Bangladesh, Egypt, Georgia, Germany, India, Iran, Italy, Kazakhstan, Oman, Pakistan, Qatar, Russia, Serbia, Switzerland, Tajikistan, Turkey, Turkmenistan, UAE, Ukraine, Uzbekistan, Vietnam.

The Belarusian Chamber of Commerce and Industry has 41 foreign representatives in 33 countries around the world.

The BelCCI provides entrepreneurs with a wide range of business services.

## INTERNATIONAL ARBITRATION COURT AT THE BELCCI

International Arbitration Court at the BelCCI (IAC at the BelCCI) is a standing non-governmental, non-profit organization, operating on a remuneration basis.

Granting there is an agreement between the parties (an arbitration agreement), the following categories of disputes can be submitted to the IAC at the BelCCI:

- Disputes between any subjects of law, arising in the course of foreign trade and other forms of international economic relations if the location or place of residence of at least one of them is abroad;
- Disputes of legal entities of the Republic of Belarus with other legal entities of the Republic of Belarus and individual entrepreneurs of the Republic of Belarus;
- Other internal economic disputes, arising between the entities of the Republic of Belarus, unless it is forbidden by the law;

- Disputes between foreign legal entities and individual entrepreneurs located outside the Republic of Belarus.

The obvious advantages of the arbitral procedure include the opportunity to participate in the formation of the court by assigning the size of the bench and appointing certain persons as main and reserved arbitrators, the choice of the applicable law and the language of the arbitration proceeding, the order of proceedings, the possibility of case hearing under the simplified procedure, the confidentiality of case hearing, the finality of the awards delivered by the IAC at the BelCCI, and the possibility to enforce the arbitration awards in any of the 157 countries – members of the UNO Convention on the Recognition and Enforcement of Foreign Arbitral Awards (New York, 1958).

**BELMASH - professional machine building factory**

**OPEN JSC MACHINE-TOOL PLANT**

**«KRASNY BORETS»**

**PERFECTION IN GRINDING –  
high-tech special grinding equipment**

JSC Machine-tool plant "Krasny borets" specializes in manufacturing and selling grinding and milling equipment, including special high-tech machines to solve specific technological problems of the Customer.

**Currently, the plant produces a wide range of equipment:**

- Horizontal - spindle compound - table surface grinding machines
- Horizontal - spindle compound - table surface - profile grinding machines with CNC
- Horizontal - spindle compound - console type- table surface - profile grinding machines with NC and CNC
- Surface grinding machines with round table and horizontal/ vertical spindle
- Circular grinding machines, face –circular grinding machines
- Internal profile grinding machines with CNC
- Thread-grinding machines with CNC
- Machines for grinding of rings of roller spherical bearings with CNC
- Spline gear - grinding machines with CNC
- Spherical grinding machines with CNC
- Machines for creep feed grinding of hard-to-machine materials with CNC
- Machines for grinding of motor camshafts cams with CNC
- Machines for simultaneous grinding of flat parts faces with CNC
- Machines for profiling of abrasive grinding wheels with CNC
- Machines of diamond – electrochemical grinding with CNC
- Knee-type milling machines including machines with CNC
- Crank presses
- Small-scale mechanization machines (sharpening-grinding, drilling-milling, abrasive belt grinding, cutting-off, manual hydraulic press)
- Technological equipment (Vacuum cleaner, swarf conveyor, rectangular electromagnetic and magnetic chucks, multi-purpose indexing head)
- Lock products
- HC-17,5-1100-0,5 profile covering with polymer coating

**Plant renders services of:**

- grinding equipment overhaul and modernization;
- -parts metalworking performance according to customer drawings.

# UNIVERSAL BOBRUIISK

Production Unitary Enterprise "Universal Bobruisk"  
of the Public Association "Belarusian Society of the Deaf"

Founded in 1996, Universal Bobruisk Production Unitary Enterprise of the Public Association "Belarusian Society of the Deaf" now is a manufacturer and supplier of a wide range of components for cars, buses and tractors, and consumer goods.

## THE ENTERPRISE PRODUCES THE FOLLOWING PRODUCTS:

- rear-view mirrors for cars, tractors, buses, trolleybuses, including those with electric control;
- high-pressure hoses for hydraulic power systems of special road and agricultural machines and mechanisms;
- brake fluid lines for all types of cars, buses and trolleybuses with pneumatic drive;
- hoses for household and industrial gas appliances;
- hoses for household and drinking water supply;
- wire bundles for automotive vehicles;
- plastic automotive components;
- covers for tractor seats;
- apparel.

## CLOSED JOINT-STOCK COMPANY "GOMEL CARRIAGE WORKS"

246014, Belarus, Gomel, Khimakova street 4  
Tel.: +375 232 33 70 32, +375 232 33 70 39  
E-mail: gomelskivsz@mail.gomel.by caйт www.vsz.gomel.by

The essential part of the plant production workload includes repairing more than 150 types of railway carriages. Being under repair they are modernized to improve functionality and to promote raising the service level.

Closed Joint-Stock Company "Gomel carriage works" has assimilated production of passenger cars mod. 61-779. For the same period our enterprise's supplied Belarusian railway with 60 passenger cars "series 779" which are successful in service on both inner and interstate routes in the CIS (Commonwealth of Independent States).

The plant capacities allow to produce the following goods:

- spare parts for freight and passenger rolling stock;
- wheel chocks by the precision core-mold casting method;
- hardware (nails, split pins).

CJSC "Gomel carriage works" repairs and creates anew formation of wheelsets for freight and passenger cars. Nowadays the enterprise is engaged in active reconstruction of manufacturing, adoption of innovations and increasing the product range.

# STADLER

Electric multiple unit FLIRT

## CJSC Stadler Minsk

CJSC Stadler Minsk, a resident of Minsk Free Economic Zone, is a leading Belarusian rolling stock manufacturing company and part of Stadler Rail Group. Our company offers a comprehensive range of vehicles in the urban and heavy rail transport segments: single-decker and double-decker trains, electric and diesel multiple units, metro trains and trams, and provides warranty and afterwarranty service for the delivered rolling stock. Since 2014, we successfully produce and deliver vehicles to the CIS broad-gauge countries, Europe and Latin America. Stadler Minsk team is more than 1500 competent specialists, who contribute individually to the creation of the innovative, sustainable and durable high-quality products. Our company places particular emphasis on our role as a faithful and a strong partner our clients can count on. We listen, we think and we work together with our clients to develop tailor-made trains. Reliability, punctuality and efficient implementation of the projects these are Stadler Minsk distinguishing features that truly set us apart.

### Steel panel heating radiators

One of the leading business activities of the JSC "Holding Management Company "LidseLMASH" is the production and sale of steel panel heating radiators under the brand name "Lidea".

The production was started in 2009. Radiators "Lidea" are produced on the modern welding line from a leading European manufacturer. The average production capacity of the workshop allows manufacturing more than 600 thousand radiators per year.

### Grain-cleaning and drying equipment as well as storage tanks

JSC "Holding Management Company "LidseLMASH" is a leading manufacturer of equipment for grain-cleaning and drying complexes as well as grain storage complexes in the Republic of Belarus.

The complexes are designed for cleaning, drying, temporary storage and discharge of grain and seeds of cereals, maize and rape seeds into railway and motor transport

For the production of the complex are used the high-strength materials that guarantee their long-term performance; all the complexes are manufactured on high-tech equipment using hot galvanizing, which ensures long-term resistance against corrosion.

### Agricultural machinery

JSC "Holding Management Company "LidseLMASH" has been operating in the agricultural machinery market since 1901. The sale of agricultural machinery is carried out through a wide dealer network.

The enterprise produces more than 30 types of mounted and trailed agricultural machinery - these are potato-planting and potato-harvesting machinery, tillage machinery, seeders, machinery for harvesting grasses and forage, forestry machinery, municipal machinery.

The production of multimodal containers has been developed. Products are supplied to farms of the Republic of Belarus, as well as for export to CIS countries and far abroad.

*Services for the anti-corrosion protection of metal products, large metal structures, sheet-metal products, cable systems by hot galvanizing.*

**Hot-Dip Galvanizing Plant Konus**

**Hot-Dip Galvanizing Plant Konus** provides anticorrosive treatment of steel structures, large-size steel constructions, cable tray systems and light-gauge sheet metal items by means of hot-dip galvanizing for customers in Belarus, Russia, CIS countries and neighboring countries.

The modern European automated line and one of the largest in Europe hot-dip galvanizing kettles make it possible to perform hot-dip galvanizing of steel structures with maximum dimensions 14.5x1.6x3.2 m (length x width x height) and weighing up to 6 tons. Zinc coating thickness ranges from 40 microns in accordance with the standard GOST 9.307-89 and STB ISO 1461-2009, depending on steel grade and article size. The company operates in accordance with Quality Management System STB ISO 9001-2015.

"DZERZHINSK  
EXPERIMENTAL MECHANICAL  
PLANT" OJSC

"Dzerzhinsk Experimental Mechanical Plant" OJSC is a modern high-tech welding production for the manufacture of metal structures and metal molds for various fields of construction and agriculture.

#### MAIN TYPES OF PRODUCTS:

- installations for molding volumetric block rooms;
- stairway forms;
- dispensers for large-panel housing construction and reinforced concrete plants;
- metal structures for shopping centers, industrial buildings;
- metal molds of columns;
- ring molds;
- casting molds;
- steaming lattice;
- autoclave trolleys;
- mixing tool for sludge pools;
- containers of various modifications;
- molds for airfield gravity plates;
- water towers.

#### OUR SERVICES:

- laser metal cutting;
- plasma metal cutting;
- metal purification and processing;
- development of design documentation.

# SVYATOVIT

**EW-25-M1**

**EW-25-M1**

**EW-25-M2**

**UNB1550**

SVYATOVIT is a machinery construction enterprise with over 23 years of history. We design and manufacture various types of machines, such as:

- Universal single-bucket excavators EW-25-M1 with telescopic boom on automobile chassis MAN, Tatra, Volvo, Iveco-AMT, KAMAZ, MAZ, MAZ-MAN, Ural and others.
- Universal single-bucket excavators EW-25-M2 with classic boom on automobile chassis KAMAZ, MAZ, Ural and others.
- Horizontal directional drills UNB1550 and UNB8000 for trenchless construction of underground utilities.

SVYATOVIT provides full-service maintenance of our production during its entire lifecycle worldwide. Our sales geography is not limited to the territory of domestic market, our machines operate in various countries of near and far abroad such as Russia, Kazakstan, Iran, South Asia and others.

LLC "POZHSNAB" is an enterprise specializing in the development, production, maintenance and repair of fire, rescue and special equipment. The company has been operating since 2002.

The main activity of the enterprise is the development and production of fire trucks and special vehicles based on various chassis with the use of high-strength corrosion-resistant material – strengthened (reinforced) fiberglass (the warranty period for fiberglass super-structures is up to 10 years).

By today, more than 100 different modifications of special machinery have been produced and are successfully used in our country and abroad. The main types of manufactured equipment are fire trucks, foam and powder extinguishing vehicles, airfield extinguishing vehicles, fire ladders, emergency rescue vehicles, first aid and rapid response vehicles, vehicles for forest fire extinguishing, staff vehicles, special vehicles for public services, and many others.

*Production of compressed-air fire equipment, breathing apparatus.*

## **Precise Electro-Mechanics Plant,**

Republican Production Unitary Enterprise  
220013, Minsk, Kulman St., 2-1

# EUROPEAN TECHNOLOGICAL SERVICE

## The food equipment subject to service and repair

### Choppers

Choppers are used for processing various raw materials: frozen meat, fish, cheeses and vegetables, meat replacers and products that may contain bones.

### Mixers

There are two types of mixers: hot- and cold-mixing ones. They are used for many operations such as mixing, cooking, baking, roasting, steam processing, vacuum cooking, and cooling. This type of devices is also good for preparing pasta sauces, stewed and fried dishes, rice, as well as cold products, mixes for sausages and nuggets, salads and vegetable mixes.

### Spiral ovens

Are used for cooking in hot circulating air. The design of the spiral conveyor belt allows creating a large efficient cooking area with a small space needed.

The combination of several consecutive spirals allows creating different climate zones for optimal product production.

### Spiral refrigerators and freezers

Each freezer and spiral conveyor is specially designed to meet the customer's demands, enabling fast cooling or shock-freezing process.

### Deep fryers

The system of continuous product feeding through hot oil ensures a crisp and a golden crust, as well as optimal roasting.

### Contact ovens

Designed for even two-way contact cooking without additional fat.

### Conveyors and elevators

A complete set of different conveyor systems, pumping systems, tipping and lifting devices allows achieving an optimal process at minimum cost.

## Installation works on equipment assembling and launching

We enter into contracts for the turn-key assembling and installation of production lines and are ready to ensure that the production process runs smoothly. Equipment service contracts guarantee a cost-effective production process in the future.

### European quality

Equipment repair, including the production of individual components and parts, is performed by experienced employees with an engineering degree and a high level of technical skills.

### Support

Service maintenance contracts.

### Flexible approach

We offer customized service maintenance.

### Personnel training

Special training of technical and service staff is possible.

## Equipment installation

Complete equipment installation and launching cycle.

## ALC «Scientific and Technical Center LARTA»

ALC «Scientific and Technical Center «LARTA» is one of the leading manufacturers of filter elements EFVP (TU 3646-001-57337877-2016, TU 28.29.82-004-57337877, TUBY 490321557.001-2017, TUBY 490321557.002-2019) produced for purification of natural and associated gas, air, different fluids and oils. The filter elements, produced by our company on the basis of modern technologies and filtered materials, have low hydraulic resistance, high efficiency of cleaning and big capacitance for dirt. A distinctive feature, contributing to improving the efficiency of filter elements EFVP, is own production of filter volume nonwoven materials and use in their design superoleophobic/superhydrophobic layer of fluoroplastic fibrous and porous material. The filter elements EFVP are successfully operated at the facilities of fuel and energy complex of OJSC «Gazprom», PJSC «GazpromNeft», PJSC «NOVATEK», PJSC «Rosneft», PJSC «LUKOIL», PJSC «Mosenergo», JSC «InterGas Central Asia» UMG «Aktau», RUE «Production Association «Belorusneft». Such enterprises as OJSC «HMS Neftemash», OJSC «Sibneftemash», JSC «Gazstroydetal», LLC «Yugaz-Engineering», LLC «Gazopodgotovka», LLC «Khimnash Glazov Plant», LLC «RoSKom-TekhMash», LLC «GazEnergoKomplekt» use filter elements of our production in their developed filters and separators.

Tel.: +375 154 696-000  
haver.by@mail.ru  
www.haver.by

*Production of screen mesh (mesh grooved for screens with square and rectangular cells; sieves with tension folds (hooks) for foreign-production screens; corrugated string sieves with vertically crimped longitudinal wire; string smooth sieves with movable strips (Irish string), harp-like self-cleaning sieves).*

# SEISMOTEKHNIKA

OJSC "Seismotekhnika", that makes part of the structure of Drillmec S.p.A. and the State Production Association "Belorusneft", is a developer and manufacturer of a wide range of high-tech oilfield and geophysical equipment. The main types of the products are:

- Mobile complexes for drilling and work-over with load capacity from 40 to 250 tons;
- Stationary drilling rigs with capacity up to 345 tons, produced jointly and using the technology of Drillmec S.p.A. (Italy);
- Drilling rigs with load capacity 345 tons in echelon version for cluster drilling;
- Vibratory sources of seismic signals with a pushing force of 20-40 tons;
- Mud pumps;
- Drilling equipment;
- Systems of preparation and treatment of muds;
- Service maintenance and commissioning at oil fields.

*Production and sale of weighing equipment. Services for the modernization of mechanical scales (automobile, wagon, for animals), repair of any complexity, calibration and verification of scales.*

**S-TANK WATER HEATERS, LLC** is a joint venture employing European capital and technologies. The main activity of the company is the production of heat storing tanks to be used in heating and domestic hot water (DHW) systems, as well as enamel and stainless steel boilers.

Currently, the production range includes tanks from 100 up to 5000 liters. The item list also includes tanks with one or two coils made of carbon or stainless steel. We can also offer tanks to be used as a part of solar collectors, gas boilers, solid fuel boilers, heat pumps, chillers, recovery systems, water treatment systems, and much more.

We are especially proud of the SS series tanks made entirely of high-quality stainless steel of AISI 304 model, commonly used in medicine and food industry. The advantage of such tanks is compliance with the highest requirements of environmental standards for the quality of the water used for food purposes, as well as their durability, as contrasted with the enameled hot water tanks.

### ADVANTAGES

- the cost of products is formed in rubles and does not depend on external factors
- reliability – 27 years of experience in production and operation
- the period from placing an order to delivery – 1,5-2 weeks
- own technical, design and engineering departments
- extended warranty – up to 3 years
- full package of project support – online programs for the selection of equipment, equipment models
- fast service – availability of service centers in all major cities of Russia
- SPTA – high-quality and affordable original spare parts, availability of SPTA in service centers
- all products are certified for use in the Russian Federation

### SUBMERSIBLE DOWNHOLE ELECTRIC PUMP UNITS ECV AND SPA

- New generation pump units with improved head-capacity and power characteristics
- Body parts of the pump unit are made from stainless steel or cast iron
- Working tools may be made from stainless steel, cast iron, reinforced plastic – NORYL
- Manufacture of the pump units that can be used with chemically active water (including sea water), with high mineralization level and temperature

### WELL EQUIPMENT AND WELLHEAD INFRASTRUCTURE

- Production of pump and pump stations control and safety systems (IP 41, 54, 65)
- Production of drilling tools and equipment (clay mixers, vibration machines, drill keys, hydraulic under-reamers, etc.)
- Production of equipment for wellhead infrastructure development (filters, columns, headwall, etc.)
- Production and supply of pump installation and operation equipment

### HIGH-PRESSURE PUMPS AND STATIONS

- Range of use:
- water-supply systems;
  - washing and clean-up systems;
  - ultra filtration systems;
  - reverse osmosis systems

- Peculiarities and advantages:
- reliability;
  - energy-efficient performance;
  - ease of technical maintenance;
  - compact size;
  - ability to create high pressure

### Production NOVELTIES

#### MANUFACTURE OF SYNCHRONOUS SUBMERSIBLE ELECTRIC MOTORS

## Gomel Region

**Open Joint Stock Company «Belaruskabel» Mozyr**  
Leading producer of cable and conducting products in the Republic of Belarus

- control and data cables;
- mounting fire and radiation resistant cables;
- power and control cables with voltage up to 1 kV;
- signal blocking cables and wires;
- combined cables;
- connecting wires and cords;
- microphone cables, wires and cords;
- wires for industrial explosive works;
- cross-station wires with PVC insulation;
- transmission wires with plastic insulation;
- installation wires for submersible electric motors;
- aviation wires;
- cables for rural, zonal and urban communication;
- radio - frequency cables for different special purposes with a core made of copper and aluminum.

## «MIRTEK-engineering» Ltd.

Modern Belarussian engineering company, one of the leaders in production of energy metering devices and construction of leading automated control systems.

### We offer contract production services:

- We supply PCB ,component parts;
- Surface-mount using SMD- technology;
- Through-hole mounting of DIP components.

The production is fitted with the surface mount line with place machine Hanwha 481 plus and SM482 plus and automatic optical inspection Jutze;

- Maximum total production rate 165 000 components/ hour;
- Placing accuracy of chip components  $\pm 40 \mu\text{m}$ , microcircuit QFP  $\pm 30 \mu\text{m}$ ;
- Maximum board size 400×340 mm;

- Board thickness 0,38 – 4,5 mm;
- Placing components size from 0201 (1×0,5) to 42×42×15 mm.

Soldering of the Dip components is realized using soldering robots «Quick 9494F». The soldering process and quality is controlled by the computer automatic optical inspection.

### We accept data for the PCB production in the following formats:

PCAD2000-2006; GERBER, CAM 350, Altium Designer.

### Company «MIRTEK-engineering» produces the most modern electronic devices:

- electric energy,
- water metering devices,
- gas metering devices.

We aspire to provide the production of high-reliable, advanced equipment used for utility meter, construction of a high-technology system of collecting, accounting and keeping data based on our devices and the Automatic system for commercial accounting of power consumption complex.

Cooperation with our company means to your enterprise high quality assurance, optimal lead time, flexible payment system. We are ready to discuss cooperation variants that are more suitable for you.

www.gomelcable.com

*Production of copper and aluminum round and rectangular winding wires with enamel, paper, fiberglass, film and combined insulation, winding wires for submersible water-filled motors, wires of various profiles, aluminum and steel-aluminum wires for overhead power lines.*

## ПРОМСВЯЗЬДЕТАЛЬ

электротехника и телекоммуникации

PROMSVYAZDETAL Ltd. is a leading Belarusian manufacturer and supplier of telecommunication and electrical equipment, fire-fighting equipment and reinforced concrete products.

### **Machulishchi production facility:**

Main warehouse of electrical products  
Assembly of electric switchboard equipment  
Manufacture and assembly of PCTS (package complete transformer substations)  
Manufacture of FOCL (fiber-optic connection lines)

### **Molodechno production facility:**

Switchboard equipment: SMP (switchboards with mounting panel), AS (associated switchboards), SS (storied switchboards), CLVD (complete low-voltage devices), LS (lighting switchboards)  
Telecommunication cabinets  
Metal furniture

### **Smolevichi production facility:**

Cable communication wells  
Reinforced concrete products

### **Promsvyazdetal company is an official representative of:**

IEK – electrical products  
ITK – telecommunication equipment  
ONI – process automation  
ССД – telecommunication equipment  
D-Link – network and telecommunications equipment

*Implementation of the projects on construction, modernization of power supply facilities, automation of technological processes for enterprises of different industries. Development of design and estimate documentation, and expert examination of the projects of power supply systems of industrial enterprises and power systems, including ES of 110 kW and more. Manufacture and supply of a wide range of electrical equipment of 0,4-110 kW for complex equipment of power supply systems of industrial facilities, as well as development of individual solutions for the equipment of: low-voltage distribution systems of 0,4 kW low-voltage complete devices, including based of modular retractable systems, telecontrol, relay protection and automation systems, control power systems, medium and high voltage switchgears (main switchgear, switchgear, distribution transformer substation, complete transformer substation based on modern and creditable equipment). Development, manufacture*

*and supply of equipment for automation systems, control and dispatching of technological processes of various complexity levels, including applied software development and software optimization services for SCADA systems of existing ACS systems.*

## **Vitok,**

Production Unitary Enterprise

of the Public Association 'Belarusian Society of the Deaf'

220073, Minsk, Gusovskogo St., 20

Tel.: +375 17 204-3353

info@vitok.by

www.vitok.by

*Manufacture of electrical products for household appliances, electrical products for household and automotive engineering (measured cutting of wires, their marking, crimping with tips, binding of wire harnesses).*

## **Volna,**

Specialized Electro-Repairing Closed Joint Stock Company

223053, Minsk Region, Minsk District, vil. Valeryanovo,

Logoyskaya St., 19

Tel.: +375 17 510-9555

info@volna.by

www.volna.by

*Services for repair and modernization of electric motors, generators, transformers, pumps and compressors. Manufacture of induction furnaces for the impregnation of windings of electrical machines and electrical equipment.*

## **ZAPADELEKTROSETSTROJ,**

Open Joint Stock Company

220090, Minsk, Koltsova St., 39/1

Tel.: +375 17 293-3626

www.zess.by

*Construction, reconstruction and modernization of energy facilities. Construction of high-voltage transmission lines with a voltage of 0.38-750 kV, cable transmission lines with a voltage of 0.38-110 kV, transformer substations with a voltage up to 750 kV, fiber-optic communication lines. Designing of high-voltage transmission lines and transformer substations with a voltage from 35 to 750 kV, distribution networks of 0.4-10 kV.*

## **Zapspectchservice,**

Closed Joint Stock Company

220040, Minsk, M. Bogdanovicha St., 120b, office 6

Tel.: +375 17 266-2394

info@zapservis.by

www.zapservis.by

*Production and overhaul repair of fire alarm systems.*

## **Mogilev Region**

## **NTP 'CENTR',**

Private Production Unitary Enterprise

www.astrolight.by

*Development and production of energy-efficient LED lighting equipment, industrial electronics and automation means, software development.*

### **Electropribor Multi-Profile Scientific and Production Enterprise,**

Limited Liability Company  
210015, Vitebsk, p/o box 23  
Tel.: +375 212 672-816  
electropribor@mail.ru  
www.electropribor.com

*Design, production, service maintenance of electric energy parameters' metering transducers, metrological support means (verification portable devices, reference digital amperemeters, voltmeters, wattmeters of accuracy class 0.1), digital switchboard amperemeters, wattmeters, voltmeters, varmeters.*

### **Elekt,**

Production Unitary Enterprise of the Public Association  
'Belarusian Society of the Visually Handicapped'

210603, Vitebsk, Komsomolskaya St., 11/5  
Tel.: +375 212 674-514  
elekt@beltiz.by  
www.elekt.by

*Production of wiring accessories (sockets, switches, plug sockets, assembly boxes), lighting products (domestic, industrial, landscape lamps), low-voltage and high-voltage equipment.  
Production of haberdashery products.*

### **Energocomplekt Production Association,**

Limited Liability Company  
210036, Vitebsk, Moskovskiy Ave., 94b  
Tel.: +375 212 487-242  
info@vikab.by  
www.vikab.by

*Production of power and control cables (including shielded, armoured, with low smoke and gas emission), wires for overhead power lines, bare wires, installation and connecting cables, power cables for medium and high voltage, including 110 kV power cables, fire-resistant power and control cables, the cables insulated and coated with halogen-free polymer compositions. Manufacture of power cables insulated with thermoelastoplast-based compositions, cables from ethylene-propylene rubber and cross-linked polyethylene cables with easily-separated semi-conducting layer, mining cable.*

### **Nodvig Plant,**

Joint Limited Liability Company  
211400, Vitebsk Region, Polotsk, Komarova St., 17  
Tel.: +375 214 482-393  
nodvig@mail.ru  
www.nodvig.com

*Production of single-phase and three-phase asynchronous electric engines with a capacity ranging from 0.37 to 2.2 kW and a rotation axis height ranging from 71 to 80 mm.*

### **POINT,**

Limited Liability Company  
211412, Vitebsk Region, Polotsk, Stroitel'naya St., 22  
Tel.: +375 214 743-801  
polotsk\_point@mail.ru  
www.pointltd.by

*Production of control and measuring devices and automation means for different industry branches (types and modifications of electronic wet-and-dry bulb thermometers, temperature, pressure sensors, metrological equipment, as well as auxiliary fasteners for the assembly of measuring tools).*

### **Yudzhn,**

Limited Liability Company  
211440, Vitebsk Region, Novopolotsk,

The photo shows an example of Vehicle Radiation Monitor

ATOMTEX is a leading research and manufacturing centre of the Republic of Belarus highly recognised worldwide in the area of development and production of equipment for nuclear measurements and radiation monitoring.

ATOMTEX was established in 1995 as a subsidiary of Minsk Scientific and Research Instrument-Making Institute. Highly qualified professionals with broad experience in nuclear instrumentation acquired in this senior and respected research centre are at the core of our team.

More than **200** employees, including staff of engineering research centre, production and service facilities

More than **100** products

Export to **120** countries of the world. Status of permanent vendor of IAEA, CTBTO, and ROSATOM.

Export share **90%**

ATOMTEX<sup>®</sup> is a registered trademark of ATOMTEX SPE in Republic of Belarus, Russian Federation, USA, China, France, Italy, Kazakhstan, Ukraine, Hong Kong, Taiwan, Japan.

25 years our professional team bears responsibility for measurement quality of each device produced by our company as well as its functionality, usability and reliability.

Our high-precision and multifunctional metrological infrastructure, promotion of innovative ideas and advanced technologies, as well as orientation to international standards – all this helps us to create state-of-the-art products of high scientific and technological level.

All our products successfully completed certification in leading metrology institutions in Russia, some of them have been tested by IAEA, Brazil, Germany, China, Korea, and USA in metrology centres.

- PERSONAL / POCKET / PORTABLE / STANDARD DOSIMETERS

## Integrated solutions

telecommunications  
security  
power engineering

Svyazinvest, JSC is the largest developer, manufacturer and supplier of a wide range communication equipment, and has more than twenty five year experience in the local telecommunication market in the Republic of Belarus. The company employs more than 200 people, who are highly-qualified specialists, which constantly improve their level.

Связь  
инвестиции

### Integrated solutions:

- Telecommunications;
- Power supply;
- Security and safety systems;
- Power Engineering;
- Street and industrial LED lighting;
- Means of military and dual-use communication;
- Designing of networks and objects (communication, security, power supply);
- Construction, installation and commissioning works;
- Repair of telecommunication and power supply equipment;

Created in 2009, the LED.si trademark is a division of the telecommunications company Svyazinvest.

The main activity of LED.si is the development and implementation of energy-efficient lighting systems based on LED luminaires with the indigenously produced intelligent system of automated control "Citylight".

We offer a comprehensive approach and selection of an optimal energy-efficient solution for a particular facility.

Analysis, lighting project developing, creation and integration of the lighting control system, allows us together with the customer to create the best design solution.

Our production system has implemented a quality management system ISO 9001, the products are certified according to the quality standards of PCT and EAC (for CIS countries) CE and ENEC (for EU countries).

Great experience in the development and production of electronic and telecommunications equipment, accumulated knowledge, the desire for continuous development and improvement allows us not only to solve non-trivial tasks, but to make ideas real as well.

Asomedica Ltd. is a Belarusian manufacturer of medical consumables and medical equipment.

Founded in 2006, Asomedica has grown into one of the largest manufacturing companies in the Republic of Belarus. The products are in demand not only in the domestic market, but also in the markets of Russia, Kazakhstan, Kyrgyzstan, Ukraine, and Uzbekistan.

The main products are: breathing circuits, catheters, urine bags, filters, etc. Asomedica is the only manufacturer of breathing circuits in the EAEU.

We provide high quality products that meet all international quality standards.

### PRODUCTS OF ASOMEDICA Ltd.

#### Ultrasound scanners

Ultrasonic portable scanner for real-time processing of ultrasound images.

Used in such areas as:

- Obstetrics and gynecology
  - Neurology
  - Anaesthesiology
  - Pediatrics
- and for other general examinations.

#### Medical catheters

The catheters are made of phthalate-free polymer material.

Used in such areas like:

- Urology
- Proctology
- Gastroenterology
- Anaesthesiology
- Surgery

#### Breathing circuits

Breathing circuits are designed for breathing therapy of the patients connected to lung ventilation devices.

Our circuits are compatible with all types of artificial lung ventilation devices and anesthetic-respiratory equipment used in intensive care units.

#### Urine bags

Large selection of urine bags for collecting urine in inpatient and outpatient departments. Designed to make life easier for patients.

#### Bacterial-viral filters

Bacterial-viral filters are used to protect the patient and medical staff from potential microbial contamination.

#### Oxygen masks

Designed for active oxygen therapy.

**Mediola** 

Mediola is a medical engineering company that design and produce laser instruments and equipment for surgery

# Surgical Laser Systems

**>10000 operations**  
are performed annually using Mediola equipment and disposable accessories

**>50 scientific publications**  
on various aspects of using Mediola products

**19 patents**  
for treatment methods and utility models in medicine

MEDIOLA lasers are office surgery for a wide range of medical disciplines:

Colorectal surgery  
Phlebology  
Gynecology  
ENT  
Endoscopy  
Urology

## Mediola Colibri

Lightweight and ergonomic laser instrument saves on the cost of disposable accessories and makes a surgeon's work more convenient and efficient

## Mediola Compact

Dual-wavelength surgical laser system where both types of radiation are delivered into a single fiber to provide the desired tissue effects

**Joint German-Belarusian Venture  
Oxygen Systems LLC**

**Oxygen concentrator**  
Type: KS MO2-20  
- Completely self-contained plant for the production of medical oxygen with attachments and connection of 10 l reserve oxygen cylinders.  
- The oxygen concentrator KS MO2-20 can be directly connected to one or more breathing apparatus as an oxygen source.

**Oxygen concentrator**  
Type: KS MSO2-20  
- Fully autonomous plant for the production of medical oxygen with a backup gas station.  
- The combination of several modules provides an O2 output of up to 1 500 l / min.

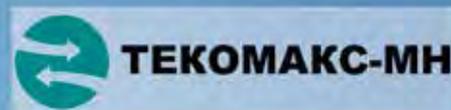

**Oxygen concentrator**  
Type: KS MO2-10 Tr  
- Transport oxygen concentrator for ambulances and reanimation vehicles.  
- Due to its compact dimensions, it does not require re-equipment in the car.  
- Constant working pressure of 4.5 bar to drive all breathing apparatus.

**Oxygen concentrator**  
Type: KS MO2-10+ Air  
- Completely self-contained plant for the production of medical oxygen with attachments and connection of 10 l reserve oxygen cylinders.  
- The oxygen concentrator KS MO2-10+ Air can be directly connected to one or more breathing apparatus as an oxygen source.

## DANA ASTRA

**Dana Astra** LLC carries out investment activities, design, construction of residential and commercial real estate, including the construction of social infrastructure facilities. Dana Astra primarily implements public-private partnership projects. This type of partnership allows for mutually beneficial implementation of long-term infrastructure projects with the involvement of private capital through the effective distribution of risks and responsibilities between the state and business.

Today Dana Astra is implementing in the Republic of Belarus one of the largest projects in Europe - the MINSK WORLD multifunctional complex.

MINSK WORLD is an international, financial, business, entertainment and residential complex located in the heart of the Belarusian capital.

The complex consists of 21 residential quarters. Residential areas will have a highly developed infrastructure that includes social, cultural and educational facilities as well as a transportation system and a new metro line.

MINSK WORLD will be a great place for walking and recreation both for residents and guests of Minsk due to its modern boulevards, equipped playgrounds, pedestrian and bicycle paths.

MINSK WORLD is a comfortable place for a happy life.

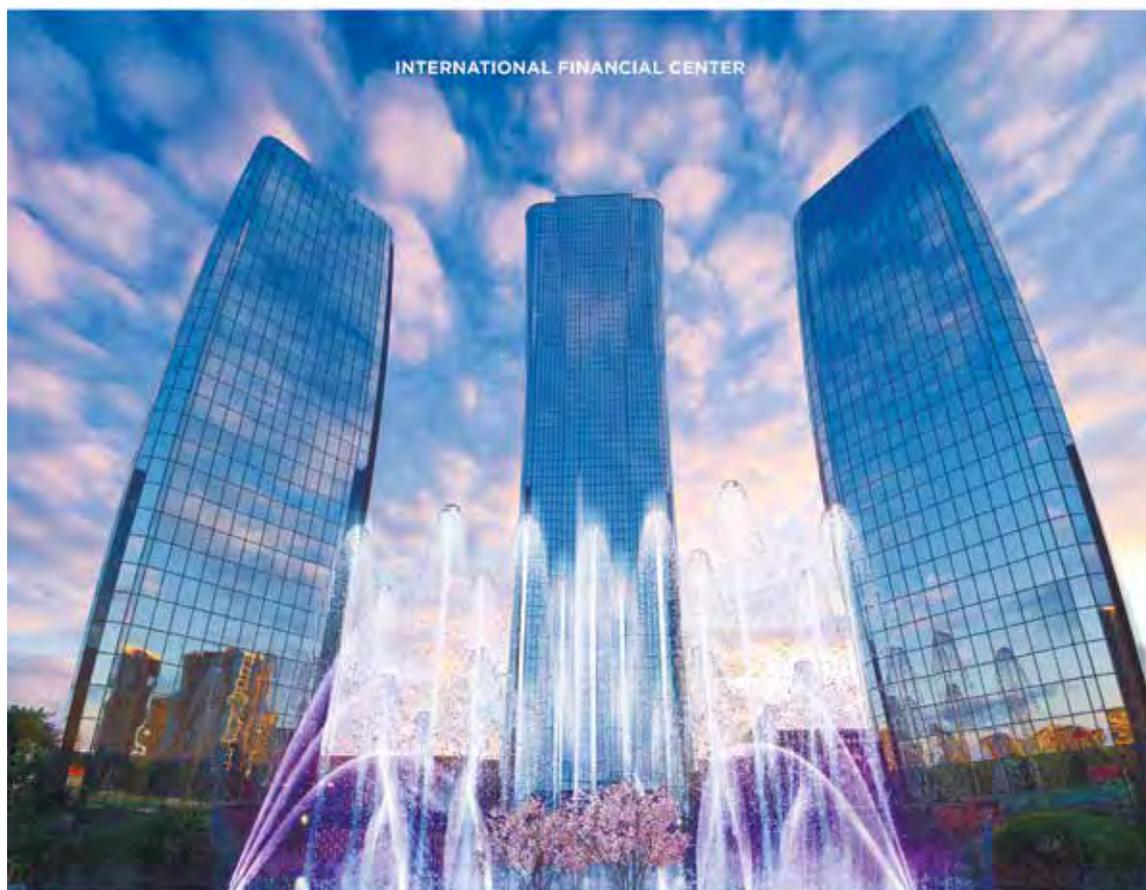

## MULTIFUNCTIONAL COMPLEX "MINSK WORLD "

The key role in the MINSK WORLD multifunctional complex is assigned to the creation of the International Financial Center (IFC), which will become a bridge between Europe and the dynamically developing economies of Russia and the East. The best international practice will be applied in organizing the functioning of the IFC with an independent legal system based on the principles of English law.

## INTERNATIONAL FINANCIAL CENTER

## CJSC "Avgust-Bel"

Avgust-Bel CJSC is the most modern enterprise for the production of crop protection chemicals in the Republic of Belarus, one of the largest in its industry in the CIS.

The factory is a modern technological facility manufacturing various formulations of herbicides, fungicides, insecticides, seed disinfectant, plant growth regulators.

The designed capacity of the company's production complex is 15 million liters of chemicals per year. The product line includes about 90 crop protection items.

All products are primarily focused on meeting the needs for plant protection products in the agrochemical sector of the Republic of Belarus as well as import substitution. Besides, the factory exports products to

Russia, Ukraine, Moldova, Armenia, Kazakhstan, Uzbekistan, as well as to far-abroad countries (Latin America, Africa). The company plans to further expand its export geography.

The production complex of CJSC "Avgust-Bel" features the best achievements of advanced technology. The company uses high-tech equipment from leading European manufacturers. The accredited factory laboratory is equipped with the best devices of their kind that allow for input control of raw materials and manufactured products, thus ensuring the highest quality and ecological safety of the products.

The workshop for the production of polymer containers produces four-layer coaxial canisters for packing the company's products.

CJSC "Avgust-Bel" is certified for compliance with the requirements of ISO 9001: 2015, ISO 14001: 2015 and ISO 45001: 2018.

In 2016, CJSC "Avgust-Bel" was awarded a diploma of the "Best Exporter of the Year" National Contest in the category "Oil refining, chemical and petrochemical industry". By today, 15 products of the enterprise have become laureates of the competition "The Best Products of the Republic of Belarus". Based on the results of 2016 and 2019, CJSC "Avgust-Bel" received the title of the laureate of the Prize of the Belarusian Government for achievements in the field of quality.

CJSC "Avgust-Bel" combines the Belarusian traditions of professionalism and quality.

Cont. Tel. +375 (17) 2600002 (3), (6), (9)

info@xerona.by

«XERONA» LLC is a Belarusian manufacturer of professional detergents and disinfectants, household chemicals using the technologies of **INDUSTRIAS VIJUSA, S.L. (Spain)**, which is one of the leaders of the European market.

We supply washing concentrates for food industry enterprises (meat/milk processing, production of alcoholic/non-alcoholic drinks, etc.), cleaning companies, agricultural enterprises (livestock, dairy farms, etc.).

The advantages of our products are:

- professional quality;
- high-quality wall cleaning and disinfection of surfaces with protection against corrosion and other damage;
- safety guarantee during use;
- high environmental friendliness of components.

The quality and cost of our products have already been appreciated by the majority of domestic food producers, dairies and meat processing plants. We are successfully replacing the products of such market leaders as Westfalia, Delaval, Ecolab, making our products the same quality, but much cheaper.

The quality of our company's products is confirmed by the high level of customer confidence... all over the world to **VIJUSA** products.

**БІГАН**

JV Bigan is the manufacturer of sausage casings in the Republic of Belarus. The enterprise produces a multi-layer plastic sausage casing under the trade mark "Biga-3".

JV Bigan carries out a self-sufficient program of sausage casings:

- Production of multi-layered sausage plastic casings "BIGA-3";
- Design of sausage casings;
- Application to sausage casings images using flexographic and UV coating. It can be one or two-sided.

JV Bigan Technology Park includes:

- Three lines for sausage casings production;
- Flexographic machine 6+2 colors;
- Flexographic machine for UV coating 7+7 colors;
- Line for cases shirring.

The export of JV Bigan covers more than 30 countries, such as Germany, France, the Czech Republic, Lithuania, Turkey, Egypt, and etc.

## ADVANTAGES OF BELITA-VITEX COSMETICS

### STAINLESS REPUTATION OF COMPANIES

For more than 30 years, the companies CJSC "VITEX" and JV "BELITA" LTD have been leaders in the cosmetic market of the Republic of Belarus

### HIGHEST QUALITY, EFFICIENCY AND PRODUCT SAFETY

- own scientific center for cosmetics
- cooperation with the world's leading suppliers of ingredients
- unique developments, including those that have no analogues in the domestic cosmetic market.
- production is certified for compliance with ISO 22716 (GMP)

**THE WIDEST ASSORTMENT** among manufacturers of the Republic of Belarus - more than 2500 names of perfumery and cosmetic products, including:

- highly effective cosmetics for skin and hair care
- a wide range of decorative cosmetics
- professional products for hairdressing, beauty and massage salons
- products for oral hygiene
- perfumery
- household chemical goods
- extracts from plant materials
- products for individual use for hotel rooms

### COMPETITIVE PRICE POLICY OF COMPANIES

BELITA-VITEX offers both inexpensive cosmetics in standard packaging and premium cosmetics in exclusive designs

### DEVELOPED DEALER AND FIRM TRADING NETWORK

Over 600 retail facilities in more than 30 countries of the near and far abroad

# ЭКСКЛЮЗИВ КОСМЕТИК

LLC "EXCLUSIVEKOSMETIK-M". THE PRODUCTION OF BELARUSIAN COSMETICS EXCLUSIVEKOSMETICS WAS FOUNDED IN 2001. THE LACK OF HIGH-QUALITY AND INEXPENSIVE COSMETICS IN BELARUSIAN PROMPTED HIGHLY QUALIFIED SPECIALISTS TO START PRODUCING COSMETIC PREPARATIONS. OVER THE 19 YEARS OF ITS EXISTENCE, THE COMPANY HAS FIRMLY STRENGTHENED ITS POSITION IN THE COSMETIC MARKET AND SIGNIFICANTLY EXPANDED THE SCOPE OF THE SPHERE.

The company specializes in the production of new generation cosmetics for complex hair, face and body care. Lines of cosmetics LLC "Exclusivekosmetik-M" are constantly developing and supplemented by the most modern and high-tech products.

Exclusivecosmetics produces: shampoos, balms and hair sprays, body creams and scrubs, face, hand and foot creams.

#### **Competition awards are evidence of the high quality of the products.**

According to the results of Russian contests for the best perfumery and cosmetic products in 2004, the products became a laureate, and in 2005 - a prize-winner of the competition! November 24, 2008 in Madrid, the Exclusivekosmetik company was awarded the XXII INTERNATIONAL EUROPEAN PRIZE "FOR QUALITY".

March 23, 2009 in Paris Exclusive Cosmetics was awarded the International Star for Leadership in Quality prize in the Gold category for Compromise with Quality, Leadership, Technology, Innovation.

Cosmetics Exclusive cosmetics are presented in Belarus, Ukraine, Kazakhstan, Vietnam, Thailand and some regions of Russia. We are building our distribution network and looking for reliable exclusive representatives in all countries of the world. The company cares about its customers and offers an individual approach to everyone. The production of Exclusive Cosmetics is able to satisfy the needs of both large and small customers.

## Private Unitary Production and Trade Enterprise "Lebedev A.L."

Private Unitary Production and Trade Enterprise "Lebedev A.L." has been operating since November 2012. The main activities are wood sawing, planing, impregnating, turning, and other types of mechanical processing of wood, including lumber profiling along the edge or face.

Production of lumber (beams, bars, boards, slats, etc.), as well as logging-related services.

FSC certification 100% NS-COC-061006.

Every year, PTUE "Lebedev A.L." enhances the volumes of wood processing, harvesting, sawing, increases the sales of lumber, and also ensures stable and efficient operation of the enterprise.

PTUE "Lebedev A.L." never stops at what has been achieved. Searching for new export niches, expanding the export geography with an emphasis on the far-arc countries remains the priorities of the enterprise's activity.

Dear friends!

- ▶ I am pleased to introduce you JSC "Vitebskdrev" actively developing modern enterprise that successfully operates in the woodworking industry market.
- ▶ We are aim at achieving the highest goals in the context of constantly acting customer requirements for date, quality, assortment of manufactured products, workflow perfection as well as compliance with national and international standards.
- ▶ We are open to every client and we build our business relationships on the basis of mutually beneficial cooperation and respect for each other.

► **MDF (Medium Density Fiberboard)** is a board material produced by dry pressing of finely divided wood chips at high pressure and temperature. Urea resins are used as a bonding element, which ensures a very low formaldehyde emission comparable to that of natural wood (formaldehyde emission class is E1). At this stage, MDF is CARB2 / IKEA certified and is manufactured with an E0.5 formaldehyde emission class.

► **Fibreboard** of a wet production method are made on the equipment "ZGODA" (Poland). Mainly used technology is the hot pressing of the formed wood fiber carpet with the addition of special components and binders if necessary. The sizing agents are paraffin emulsion and phenol-formaldehyde resin.

► **HDF (high-density fiberboard)** is manufactured and laminated on the basis of automated equipment of the IMAL company (Italy). Further, the lined HDF plate is milled on the CELASCHI milling equipment (Italy) into the CLICKON lock profile.

The accredited laboratory of JSC "Vitebskdrev" carries out the following activities:

- testing of plate materials (MDF / HDF, fibreboard, particleboard), laminate flooring;
- tests on the physicomechanical parameters of window and door blocks, shaped products from wood and PVC;
- production of roughness samples;
- formaldehyde content in plate materials using the punch method, gas analysis method and chamber method;
- environmental tests;
- radiation monitoring of woodworking products.

Tests are conducted according to Interstate, European and International standards. Services such as certification of workplaces, environmental monitoring, quality control of drinking and wastewater are provided according to the laboratory accreditation. Laboratory services are provided by highly qualified staff on modern testing equipment using modern measuring instruments.

In 2018, the laboratory of JSC "Vitebskdrev" was awarded the Diploma for winning the "Competence 2017" competition among the testing laboratories of the Republic of Belarus. In addition to the Certificate of Accreditation BY / 112.2.0250 (valid for 08.15.2020) the laboratory has a license to carry out activities related to the control of radioactive contamination.

Additionally, workshops are held on test methods included in the field of accreditation.

More information about the laboratory is available at: <http://lab.vitebskdrev.com>.

If you are interested in providing laboratory services, please contact:

Head of the Central Laboratory, Ivan Groshev, phone numbers: +375 212 37-49-40, 212 22-54-67, +375 29 714-79-54,

# “GIDROMASHSERVICE” LLC

The enterprise manufactures T-21 – T-27 corrugated cardboard of “B”, “C”, “E” profile with brown and white facing line. The quality of the products meets the GOST 7376-89 optimized physical and mechanical performance criteria (edgewise compression strength, bursting strength) and has perfect visual characteristics.

The enterprise also produces GOST 9142-90 high-quality **three-layer corrugated board packaging** made on high-performance processing lines enabling application of up to three colours of flexoprint, such as Swiss-made flat bed die cutting line, Polish-made rotary die cutting line and a Swedish-made line producing four-valve boxes.

All products are  
certified

Production capacity of the enterprise enables producing over 20 million sq.m. of high-quality corrugated packaging and board annually. The enterprise acquires and installs the equipment which allows permanently expanding the product range.

Our company enjoys vast working experience in corrugated board products supply to Belarusian enterprises. Large production and storage facilities enable continuous supplies of corrugated board and products from it to our clients.

The marketing strategy ensures the most cost-competitive production, therefore we provide our clients with the necessary amount of corrugated packaging at favorable prices.

INTERPAPER Group of Companies has been presented in the paper sanitary market since 1993 and currently is one of the leading private Belarussian manufacturers of paper sanitary produce of 100% virgin pulp of various density. Our production range goes as far as 1 and 2 ply toilet and napkin tissue, 1 and 2 ply roll and V-fold towels as well as our special products for agricultural industry and stockbreeding purposes.

Our produce is well known and popular in the profile markets. We exert our every effort to control and improve the quality of our products as well as to expand the production range and promote them into the outer markets.

In 2014 our production was fully renovated. Now we take our benefits from the new machinery and highly qualified staff as well as from the updated logistics.

MUNIKS Company is a proud constituent part of our industrial group that is a manufacturer of the base-paper.

Thus we provide a most complete and independent production cycle in order to meet all the requirements of our customers.

## BEL-OBST

**Foreign Limited Liability Company BEL-OBST** is the largest Belarusian manufacturer of natural fruit and berry aseptic preparation for dairy products: thick and drinkable yoghurts, ice cream, drinks, cottage cheese desserts. BEL-OBST is the market leader in the production of fruit and berry aseptic preparation in the Republic of Belarus.

The company offers homogeneous and heterogeneous preparation for your products. Analyzing the global trend in nutrition, BEL-OBST develops and offers innovative preparation with unique tastes **WITHOUT** sugar, **WITHOUT** gluten, **WITHOUT** E-code, **WITHOUT** artificial colorants, **WITHOUT** preservatives.

Our portfolio includes more than 12,000 recipes from 5 classic lines (we develop and produce mono-flavors and complex multicomponent flavor solutions):

- fruit preparation
- vegetable preparation
- chocolate preparation
- cereal preparation (including nuts and seeds)
- alcoholic preparation

The company is actively developing the HoReCa direction: making sauces (for meat, fish, side dishes, salads), spreads (sweet/spicy/salty), jams (from local berries and fruits, as well as from exotic fruits).

## OJSC "GRODNO MEAT PROCESSING PLANT"

### IS ONE OF THE BELARUSIAN MEAT MARKET LEADERS

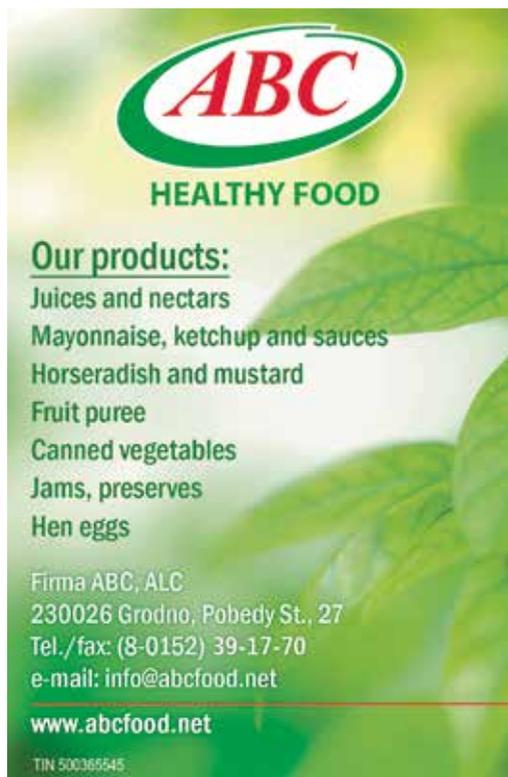

Grodno Meat Processing Plant is an enterprise with long-lasting history. Today, one of the largest representatives of the Grodno region food industry is known not only all around Belarus, but also far beyond its borders. Apart from the Russian Federation, Grodno meat and sausage products are purchased by more than a dozen countries worldwide. First of all, these are the republics of the post-Soviet space, such as Azerbaijan, Uzbekistan, Kazakhstan, Georgia, and others. Also, the Grodno products are familiar to consumers in Vietnam and China.

There are about 500 items in the Grodno Meat Processing Plant product range. About three thousand tons of sausages and several hundred tons of semi-finished products are rolled off the conveyor every month. Beef and pork are also produced.

The guaranteed quality of products allows the meat processing plant to expand its sales markets, thereby ensuring economic efficiency.

# МАЛАДЗЕЧНА

МОЛОДЕЧЕНСКИЙ МЯСОКОМБИНАТ

«VELES-MEAT» LLC – IS THE MODERN MULTIDISCIPLINARY MEAT-PROCESSING COMPLEX WITH FULL PRODUCTION CYCLE– «FROM FIELD TO MARKET»

- The enterprise has the **production capacity** of 900 tons of sausages and meat delicacies per month and 150 tons of semi-finished per month.
- **Proper up-dated slaughterhouse** was put into operation in 2015 equipped with two separated slaughter lines (without production line crossing) – cattle slaughter line and pig slaughter line.
- **Pig-breeding complex «Sovlovo»** with a capacity of 100 000 animals per year has worked since 2017. **Pig-breeding complex «Polochany»** with a capacity of 100 000 animals per year was put into operation in 2019. These are the latest equipment pig-breeding farms of Danish selection. There are 3,190 hectares of arable land for feeding their own raw material base («Gorodilovo» JSC).
- The enterprise supplies frozen beef to the PRC by means of its **own Trading house** in Chongqing.

«Veles-Meat» LLC has certified management system of food safety (HACCP), quality management system (ISO) and has the Certificate for the right of marking by the sign «Halal» (in accordance with the requirements of voluntary certification under the canons of Islam).

# RESORT AND REHABILITATION CENTER "RUZHANSKY"

Being a therapeutic institution, we have been constantly improving and developing our medical treatment activities. We offer all types of ultrasonic, functional and laboratory diagnostics. About fifteen doctors work permanently in the institution. Treatment is provided to both adults and children. The resort and rehabilitation center "Ruzhansky" has a responsible attitude to the selection of specialists. All doctors are constantly improving their knowledge, upgrading their skills. The high professional level of doctors, wide experience and constant skill improvement allows us to guarantee the highest level of all the services provided at the "Ruzhansky" resort and rehabilitation center.

- **Gastroenterology • Gynecology • Cosmetology • Dentistry • Pediatrics • Therapy**
- **Nutrition • Endocrinology • Acupuncture • Physiotherapy • Remedial gymnastics**
- **Functional diagnostics • Neurology, urology are to open shortly • there are two physical rehabilitation trainers in the institution staff**

The center has a daycare department and a 24-hour hospital with a team on duty, consisting of a doctor and a nurse. The medical component with the latest medical equipment and the advanced medical base is well integrated into the unique environment of the "Ruzha Khutar" resort.
